

APPLICATIONS FOR 2017 SEAC STUDENT TRAVEL AWARDS DUE DATE: FEBRUARY 24, 2017

The SEAC Graduate Student Travel Grants, sponsored by [Princeton Applied Research](#), [CH Instruments](#), [Gamry Instruments](#), and [Pine Research Instrumentation](#), are awarded to promising graduate students to offset the cost of travel to the Pittsburgh Conference to deliver an oral or poster presentation in a Conference symposium. The presentation, unless otherwise noted, should be on a topic related to their dissertation or thesis, and in some area or application of electroanalytical chemistry.

Because the costs in various venues of the Conference may vary, the amount of the awards will be determined by SEAC and will typically be between \$250 and \$500. The value of all of the awards in any one year will be equivalent, but it may vary from year to year. The award will not exceed the reasonable cost of advance-purchase economy airfare and reasonable expenses for lodging, nor the awardee's actual expenses. In order to spread the travel money as equitably as possible, not more than two awardees will be selected from any one research group and no more than three awards will be made to students from any one educational institution.

This year, thanks to an additional donation from Gamry Instruments, SEAC is again accepting applications for an *Electrochemical Impedance Spectroscopy* (EIS) Travel Grant. This travel award is for graduate students who use EIS and will present their results at Pittcon 2017. The award will cover the cost of registration plus \$500 towards travel. (Note: For this award, please indicate on the application that you are "*applying for the EIS Travel Grant.*")

The nomination shall consist of the student's current graduate transcript, a copy of the abstract submitted to the Pittsburgh Conference, a complete resume including publication list, and a letter of recommendation from the student's research advisor. The advisor's letter should include a statement of approximate graduation date and a short description of the student's speaking ability. A candidate shall be considered for an award for travel to Pittcon meetings occurring up to one year after the student's Ph.D. defense. Previous awardees will not be eligible for further consideration.

The decision for the 2017 SEAC Student Travel Awards will be based upon the material that is available to the award committee by the 24th of February 2017.

Nominations should be emailed as a single pdf file to the SEAC Awards Committee Chair:
